

The Liquid Coated Card

A Big Budget Feel Without the Expense.

There's no need to sacrifice quality the next time your plastic card promotion calls for a quick turnaround, low budget solution. ABnote's **Liquid Coated Card** offers the high quality look and feel of a traditional film laminated card, but at a fraction of the cost.

The Liquid Coated Card is designed for all card promotions — perfect for club and association cards, membership cards, gift cards, and direct mail card programs.

You'll get the same workmanship, experience and quality that makes ABnote the leader in film laminated card printing. And, you'll get the same card enhancements found on most film laminated cards, such as: card personalization, magnetic stripe encoding, ink-jet imaging and numbering, barcoding, and card/carrier matching and mailing.
